

# Rainforest Revive

## Skin Renewal Potion

4 ounces

Retail Price: \$21.95

**Description:** Revive, rejuvenate and nourish your skin with the essence of the rainforest! Intensive therapy for your skin with the rich, emollient, regenerative, healing oils, resins and extracts of the rainforest. Rich in naturally occurring nutrients including vitamins, minerals, antioxidants, essential fatty acids, and trans-retinoic acid; Rainforest Revive attenuates wrinkles and fine lines, moisturizes, repairs, rejuvenates, nourishes and rehydrates the skin for a more youthful, supple look and feel. Rainforest Revive uses only 100% natural and sustainably harvested ingredients. No chemicals, additives or preservatives are used and no animal testing is performed.

### INGREDIENTS:

#### **ALOE VERA GEL** (*Aloe barbadensis*)

The properties of aloe vera have been described in numerous scientific journals which reveal that it contains more than 70 essential ingredients and nutrients including most vitamins, minerals, enzymes, protein, and amino acids. Aloe vera can aid in keeping the skin supple and has been used in the control of acne and eczema. Aloe's healing power comes from increasing the availability of oxygen to the skin, and by increasing the strength of tissue.

#### **COCOA BUTTER** ([Theobroma cacao](#))

A creamy yellow butter obtained from the roasted rainforest chocolate bean. Cacao trees grow wild in the Amazon rainforest and are cultivated in many tropical countries. Cocoa butter has excellent emollient properties and is used to soften and protect chapped hands, lip and skin, absorbing quickly into the skin. It is good for all skin types and is particularly excellent for dry skin. The natural emolliency, moisturizing and antioxidant characteristics of cocoa butter make it an excellent choice for uses designed to rejuvenate the skin.

#### **SHEA BUTTER** (*Butyrospermum parkii*)

Extracted from the nuts of the karite tree in South Africa. In June and July, the plum-like green berries are harvested. It is the pits of the berries that make this butter. Tests show that African Shea Butter, on its own, provides excellent protection against UV rays. It is high in vitamins E and A, linoleic acid, and fatty acids which makes it ideal for all types of skin and skin problems. It has a very soft yet non-greasy feeling and absorbs easily into the skin. Shea butter has been used for thousands of years in the African culture as the ideal treatment for dry and aging skin, as well as, a medicinal balm for rheumatism, muscle aches, burns, and light wounds.

#### **ROSEHIP SEED OIL** (*Rosa sp*)

Rosehip seed oil is a traditional natural product from Chile that moisturizes dry, mature, sensitive, aging and problem skin. It is considered a cellular regenerative oil which regenerates scar tissue, attenuates wrinkles and age spots and helps to prevent and fade stretch marks. It is a potent anti-inflammatory oil with polyunsaturated essential fatty acids and trans-retinoic acid that helps dermatitis, eczema or psoriasis by providing an immediate relief for dry skin. These benefits are due to the high amounts of natural trans-retinoic acid found in high proportion in Rosehip seed oil.

## **EMU OIL**

A natural emollient and lipid replenishing oil that is legendary in Australia for its healing abilities for dry, irritated skin. Its unique penetrating properties make it an excellent carrier vehicle for other ingredients to assist their dermal penetration. Emu oil softens dry rough skin and callouses, promotes healing and reduces scar tissue formation, hydrates, and reduces the appearance of fine lines and wrinkles.

## **COPAIBA OIL ([Copaifera officinalis](#))**

Copaiba oil is actually an oleoresin tapped from a rainforest tree, *Copaifera officinalis*. The oleoresin has a very high content of naturally occurring essential fatty acids as well as stearic and oleic triglycerides that are the building blocks of healthy skin tissue. It has been documented with antibacterial activity and anti-inflammatory activity in various clinical studies which has validated its long history of traditional uses.

## **ANDIROBA OIL ([Carapa guianensis](#))**

This rainforest nut oil has been documented with analgesic and anti-inflammatory activity. It is a great source (up to 65% ) of unsaturated fatty acids such as linoleic and palmitoleic acids which have documented benefits for skin health. Linoleic acid, an essential fatty acid that is important for the skin and the cell membranes, provides regenerative and restructuring virtues which allow better control of skin moisturization.

## **SANGRE DE GRADO ([Croton lechleri](#))**

A red resin tapped from the rainforest Dragon's Blood tree has demonstrated scientifically the ability to increase wound healing and collagen formation. Indigenously used in the rainforest for all types of skin problems and conditions including an anti-wrinkle and anti-ageing remedy.

## **AVOCADO SEED OIL (*Persea americana*)**

Avocado oil is renowned for its healing, anti-bacterial, and anti-wrinkle properties. This highly therapeutic monounsaturated oil contains protein, vitamins A, D, and E, amino acids, and lecithin. It has been documented to stimulate collagen metabolism and increase the proportion of soluble collagen in the skin, thereby aiding skin elasticity and helping to retard visible signs of ageing.

## **VITAMIN E OIL**

This powerful antioxidant vitamin has the ability to penetrate the lipid cell walls to protect against oxidation. Vitamin E was first discovered to be anti-aging in that it reduced MDA (Malonyldialdehyde) in the skin. MDA negatively affects collagen, causing skin to lose its elasticity. Vitamin E has the ability help hydration on the skin surface which improves smoothness and softness.
